Summary

- Experienced full stack developer.
- 2 years experience with the latest technologies (JS, React, HTML, CSS).
- Contributed in creating and deploying a successful apartment listing site.
- Ability to work with both front and backend development.

Experience

Full Stack Web Developer

Agile Oilfield Services, LLC.

Feb 2022 - Present (11 months +)

Helped in the creation of a listing site called RentBarker.com using technologies such as javascript, HTML, and CSS. The framework currently being used is Next.js with Redux.

Casedhole Completions Manager

Dynasty Wireline Services, LLC

Jan 2018 - Nov 2021 (3 years 11 months)

During my time with Dynasty Wireline, I was in charge of a crew of 4 individuals. My role as a CCM was to perform a precise operation called Plug and Perforation. Analysis and planning went into every stage of the operation.

Field Specialist

SLB

Jan 2017 - Jan 2018 (1 year 1 month)

While at Schlumberger, my crew and I performed Plug and Perforations for multi million dollar clients in the Eagle Ford Shale. During this time, I learned new technologies that involved very complex logging tools as well as the software used to in conjunction with them. I Attended Kellyville Learning Center and became certified in Plug and Perforation operations

Wireline Operator

FTS International

Jan 2015 - Jan 2017 (2 years 1 month)

While working at FTI, I was in charge of the training of any new hires. As a Sr. Operator, communication and critical thinking were key to the success of the job at hand. Electronic as well as explosive components were built by my crew and I.

Education

Foy H Moody High School

High school diploma, Computer Programming

Licenses & Certifications

Full Stack Web Developer - The University of Texas at San Antonio
